FUN FACT:

Pluto was discovered in 1930, but its cycle around the Sun has not yet finished since a Plutonian year is 247.68 times longer than an Earth year.

Volunteering & Resources

STEMULATING SATURDAYS

On the 1st Saturday of every month, at 8:30-11:30 am, STEMulates are looking for volunteers to help with STEMulating Saturdays, which is a monthly program designed to increase student participation in STEM activities through hands-on challenge based learning experiences.
